The master of stone projects

2006-  
2025

# BEST TIME

BESTTIME STONE, for more than ten years experience in high-end villas, luxury mansion and big stone projects. We committed to providing high-end home decoration stone whole process and integration customization services. Three intelligent stone processing bases, 50, 000 square meters of factory buildings , to help BESTTIME steady development. The company takes the "world stone capital" Shuitou headquarters as the center, sets up the Xiamen, Anxi, Fuzhou, Fuqing, Putian and other places direct operation department, the business scope covers the whole country, has the superiority direct operation system. Focus on craftsmanship and design. BST adheres to originality and customization, accumulates rich stone design and construction experience, constantly innovates the level of specialization, explores the best combination of materials and technologies, and strives to provide the best solution for stone customization in luxury houses. In order to create the top stone technology, the company imported 10 Italian five-axis machining center and other world-class processing equipment, equipped with the industry's top technical personnel team, subverted the traditional stone rough processing mode, with intelligent, digital, standardized, production advantages, monopolized the industry technology lead, The global exclusive patented LUMISTONE technology and the advantages of imported CNC machining center help BST achieve 100% perfect quality.

## COMPANY CULTURE

### MISSION

To improve the quality of people's home life.

### VISION

Become the first choice of customers,  
staff pride, peer respect, social recognition  
of brand enterprises.

### AIM

Become the leader and successor of  
the stone home improvement industry.

### CORPORATE VALUE

Focus on customer needs,  
Excelsior; Dare to criticize and self-criticize;  
Lifelong learning.

BEST TIME STONE FACTORY

"BESTTIME STONE" is located at the Daying Railway Factory Bay, Shuitou Town, Nanan City, Fujian Province, with a construction area of about 20000 square meters. Now has more than 150 employees, since the establishment of the company has bought a variety of international advanced digital, automatic stone processing equipment, the formation of an annual output of 200000 square meters of large board processing capacity. The product structure is complete enough to provide high standard and high quality products for all kinds of large and difficult projects.

# 150+

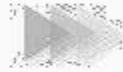

At present, the company has more than 150 technical personnel, more than 20 design team, has a rich of experience and practical ability for a variety of processes, special-shaped, providing a platform for the realization of BST's customers.

“Employees are a company's greatest asset”

BEST TIME TEAM

## 5S

### 5 S MANAGEMENT

The company follows the 5S factory management "green production" production concept,, make a full use of new technology, new equipment to present environmental protection production. To create a "green environmental protection industry chain" from all aspects of Eco friendly, staff ' s competence, production management.

## ADVANCED EQUIPMENT

Since 2016, the company has imported five-axis machining centers, large board automatic scanners, intelligent bridge cutting machines and other advanced equipment from Germany and Italy. Upgrade the processing technology in an all-round way, improve the precision and stable production of the products, and make the efficiency of the enterprise and the quality of the products reach "double high quality" with the power of high technology.

## CERTIFICATE HONOR

Since the establishment of the company, we have always adhered to the concept of continuous innovation and continuous breakthroughs. As of June 2023, the technology independently developed by the company has obtained a number of technical patents in the industry such as "LUMISTONE" "ANTI SHATTER" "ultra-thin composite technology." The core technologies have passed the intellectual property rights of developed countries such as the United States and the United Kingdom and the EU certification.

BEST TIME

34+

### OUR DISTRIBUTORS

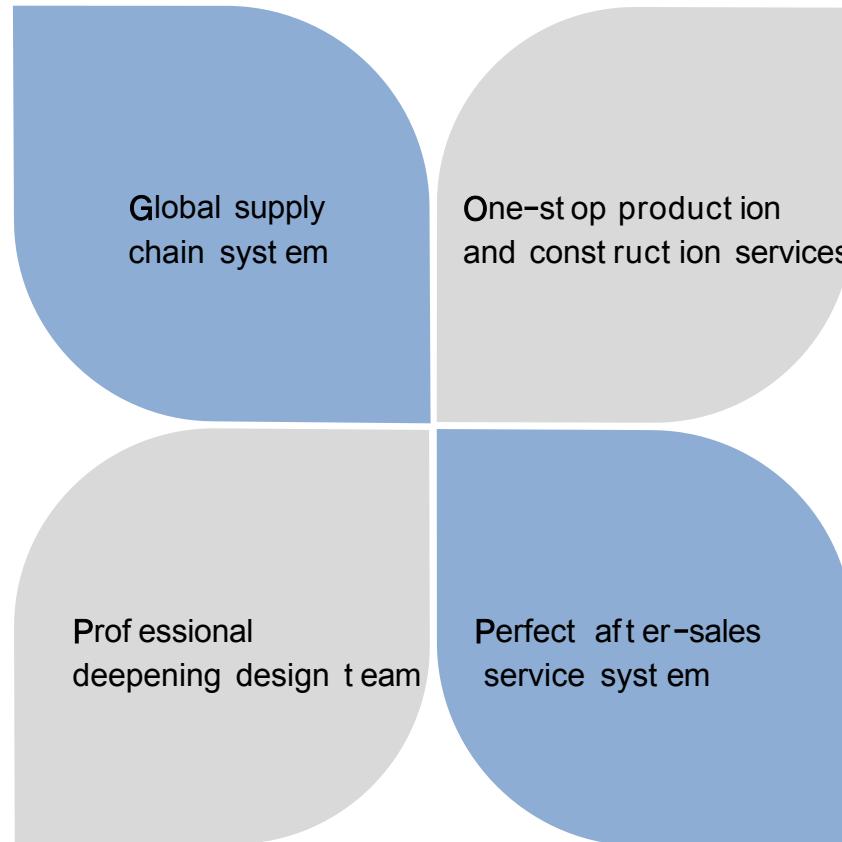

Up to now, the country has 34 agents, all over Beijing, Shanghai, Fuzhou, Guangzhou, Shenzhen, Jinan, Yantai, Zhengzhou, Kunming Chongqing, Sanya, Hangzhou, Tonglu and other large and medium-sized cities.

## CORE ADVANTAGE

Complete processing technology  
(Factory to customer) business  
Cost advantage  
Redesign

Mode: no dealer, direct connection  
to the factory

Top professional senior designer  
team in the industry  
Familiar with the use and  
combination of various decoration  
styles and materials  
Participate in the whole process of  
scheme design, control the size,  
accompany the purchase, and  
connect with the site construction

Signing of agreements Material selection  
and procurement  
Progress coordination and production  
Logistics distribution and inspection and  
acceptance

Installation and maintenance On-site  
management services

Maintenance and after-sales service

## ANTI- SHATTER TECHNOLOGY

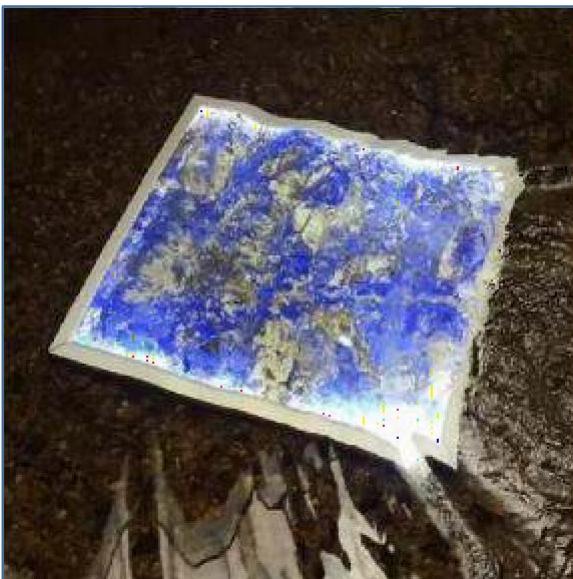

### ANTI- SHATTER

Our impact resistance technology significantly improves product durability

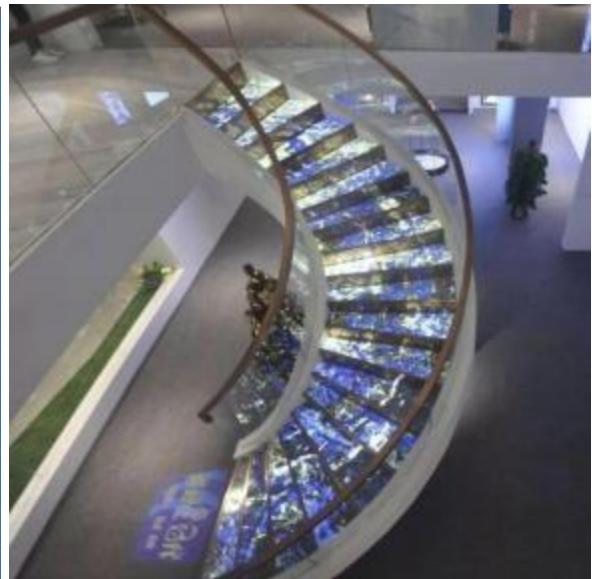

### SCRATCH RESISTANT

The toughening process makes its surface less easy to scratch, and it can also be polished and refurbished later

### WATER PROOF

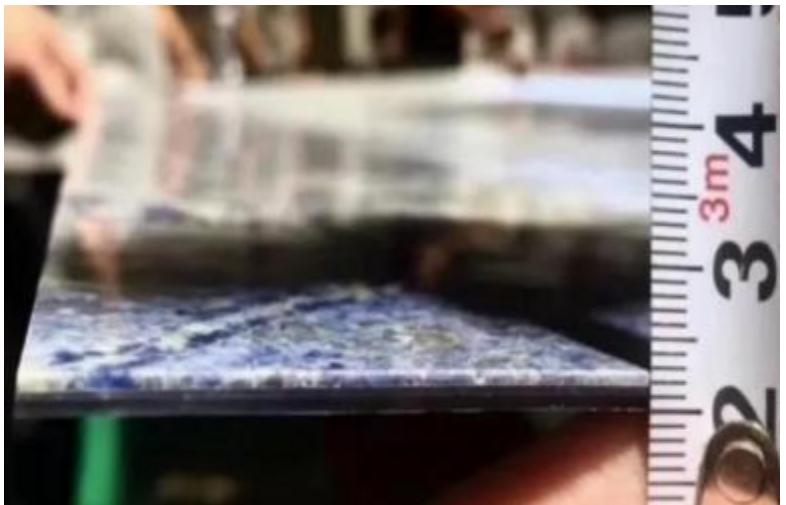

The product has been waterproofed. Can be used in waterscape, garden outdoor

### CUTTABLE

The product can be cut into any shape and still shin

## UITRA- THIN STONE TECHNOLOGY

### ULTRA THIN

We can cut the SLATE very thin, can be cut to 1-10 mm, can effectively reduce the cost of materials

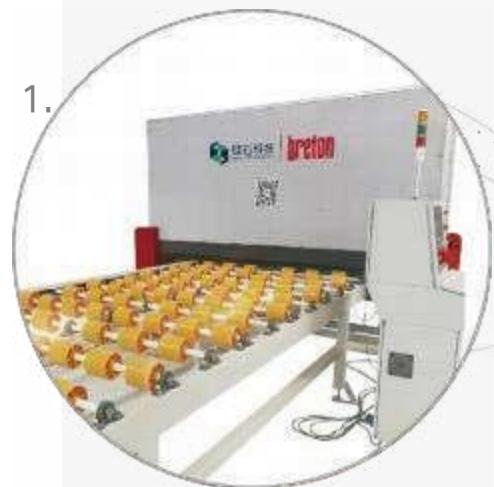

### 50 % LIGHTER

We reduce the stone panel weight by 50% by cutting it thin, saving logistics, delivery, and installation cost. Less environmental impact and smaller CO<sub>2</sub> footprints

### FLEXIBLE

Our ultra- thin & flexible boardtechnologies allow the use of stones more extensively like the column& curved surface.

## INTELLIGENT PRODUCTION

### Intelligent scanner

AI intelligent automatic sizing system

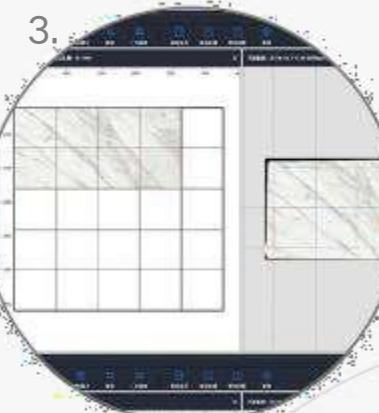

High resolution slab photo collection

Generate exclusive ID, high resolution slab pictures can be traced.

### High resolution slab photo collection

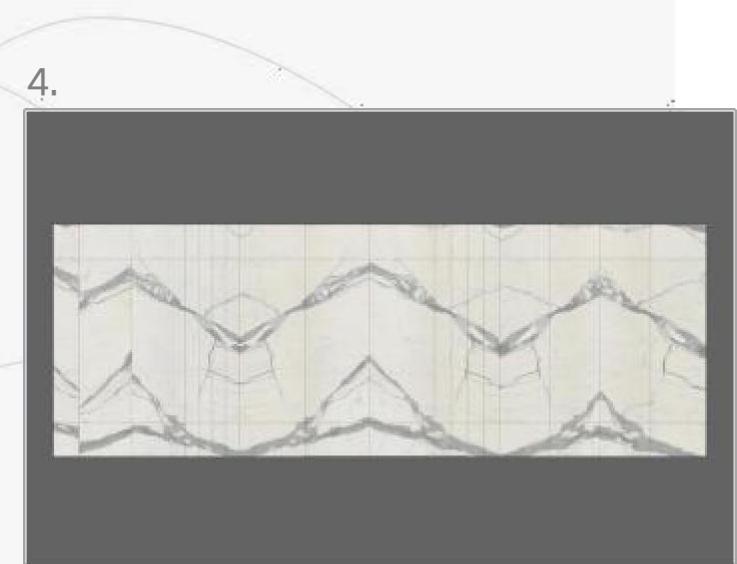

- The photo of each slabs is scanned and saved
- The accuracy of picture size and physical size can reach  $\pm 0.25\text{mm}$

### Pre- Layout effect

Automatic detection of the size of the large plate, making joint accurately

In the pre-layout, 100% of the real paving effect

### Pre- typesetting effect

- Clever use of texture to go into the grain, and chase grain design to avoid defects reasonable

6.

Pre-layout effect of finished product

100% return to original effect drawings, you get what you see

5.

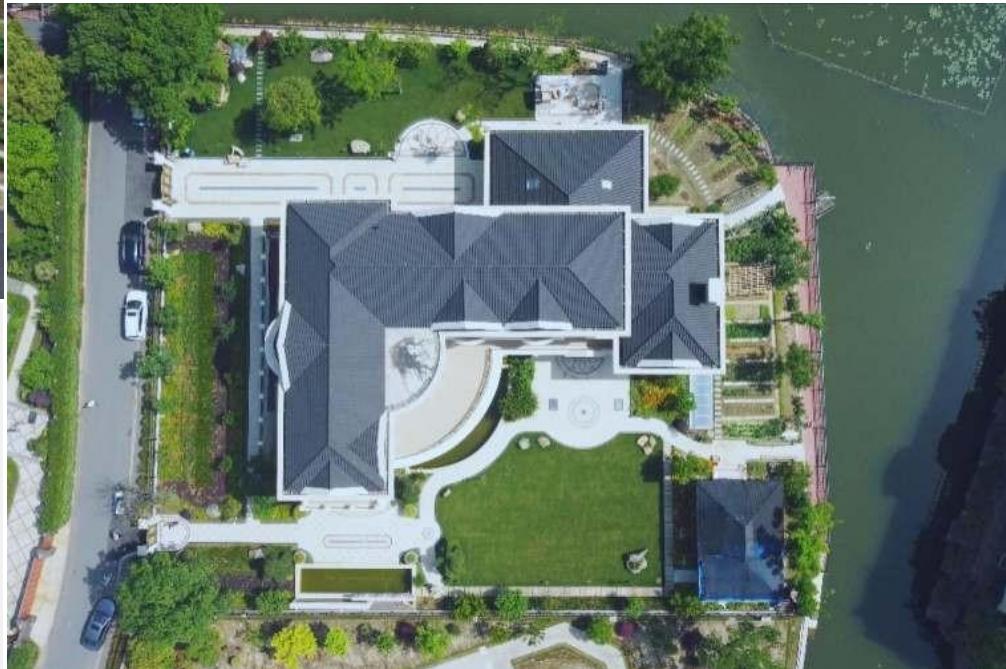

Intelligent bridge cutting machine

- Fully automated operation
- Automatic detection of slab dimension and cut it base on the pre-layout datas
- Cutting accuracy can reach  $\pm 0.25\text{mm}$

# CLASSIC CASE PRESENTATION

## CLASSIC CASE:HANGZHOU SONGCHENG MEDITERRANEAN 72#VILLA

Architectural style:french style

Main materials:Shaana beige,Green onyx

## CLASSIC CASE: XIAMEN GUOJIAN DONGHAIAN 75 # VILLA

STYLE: Modern simplicity

Main materials: Galaxy grey grain, Versace grey, Snowmountain blue

## CLASSIC CASE: FUQING XIANGXI VILLA

STYLE: Modern Luxury

Main materials: Ariston , Bianco Carrara, Lauren Blackkin

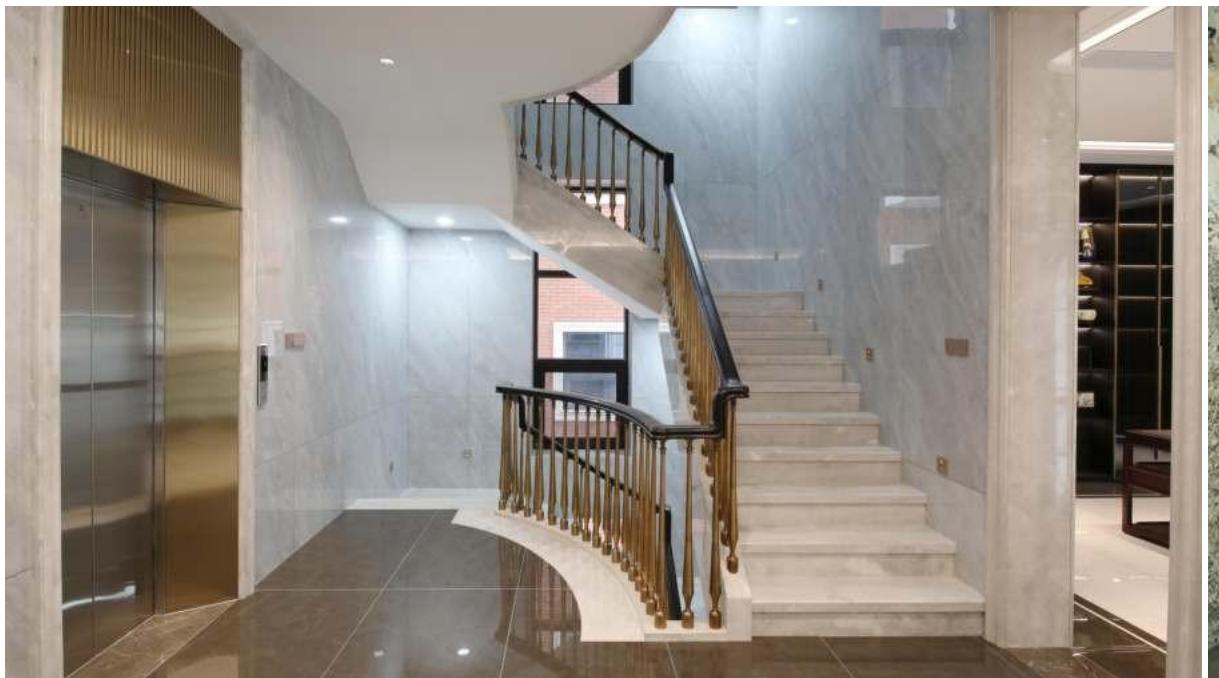

## CLASSIC CASE: FUJIAN YINGDU VILLA

STYLE: Modern Chinese style

Main materials: Amazonite snow mountain blue

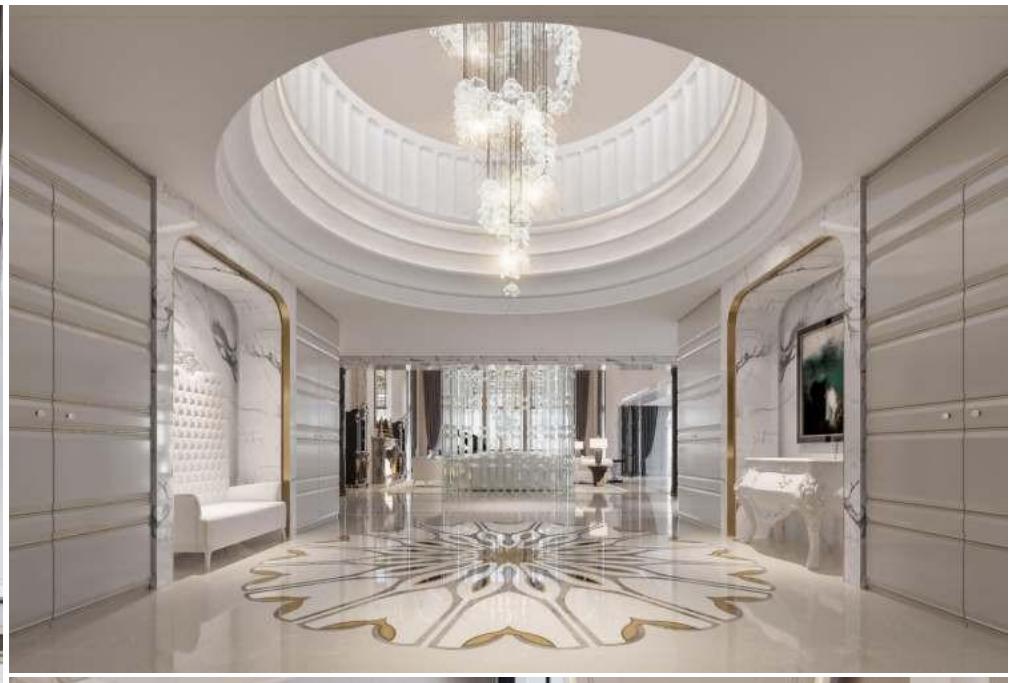

## CLASSIC CASE: BEIJING HENGDA PALACE 339# VILLA

STYLE: Modern Luxury

Main materials: Bianco Carrara, Carved white, Roman limestone

## CLASSIC CASE: BEIJING HENGDA PALACE 310# VILLA

STYLE: Modern Luxury

Main materials: Bianco Carrara, Carved white, Royal Botticino

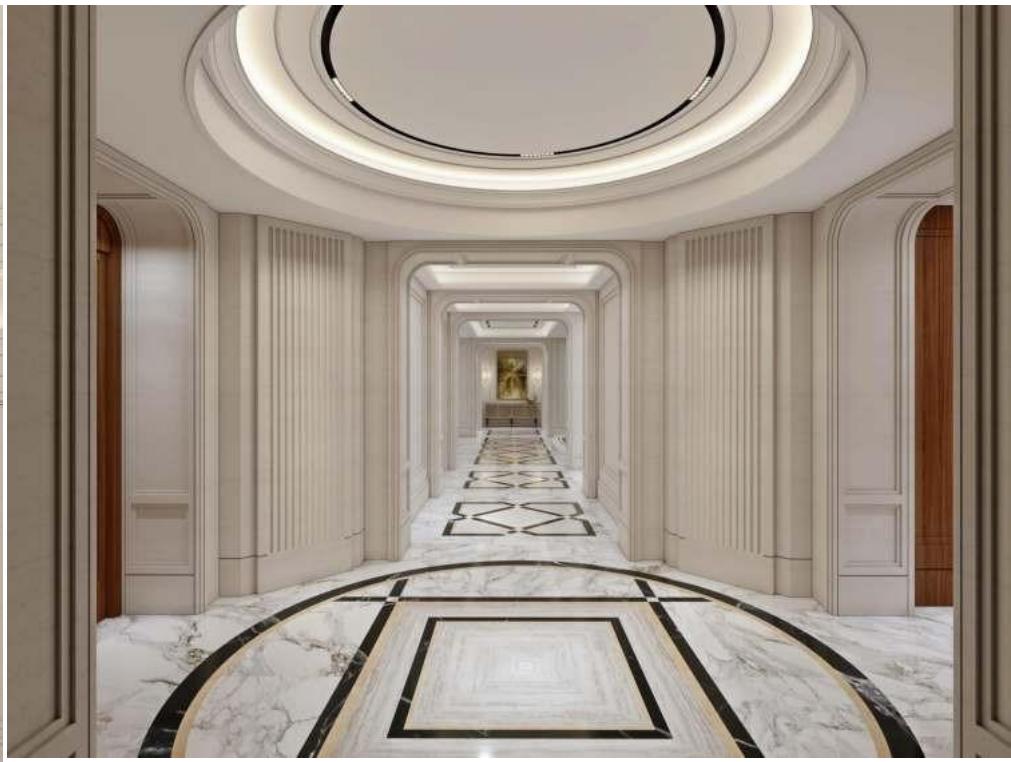

## CLASSIC CASE: BEIJING HENGDA PALACE 311# VILLA

STYLE: Modern Luxury

Main materials: Bianco Carrara, Carved white, Royal Botticino

## CLASSIC CASE: XIAMEN YUNDING 18#VILLA

STYLE: FRENCH STYLE

Main materials: Bianco Carrara, Carved white, Royal Botticino

# CLASSIC CASE:FUQING KUILING VILLA

STYLE: FRENCH STYLE

Main materials:Bianco Carrara,Carved white ,Royal Botticino

# CLASSIC CASE: FUQING KUILING VILLA

STYLE: FRENCH STYLE

Main materials: Ultraman cream , Amazoniteo

# CLASSIC CASE: FUJIAN PINGTAN VILLA

STYLE: FRENCH STYLE

Main materials: Ultraman cream

# CLASSIC CASE: FUQING HUXI GARDEN VILLA

STYLE: FRENCH STYLE

Main materials: Royal Botticino

# CLASSIC CASE: FUJIAN ANXI VILLA

STYLE: MODERN LUXURY

Main materials: Ultraman cream, snow mountain blue, shangri-la
